Workshop "Evaluation of PZB Travel Data"

A workshop for all users who regularly carry out analysis of PZB travel data. In addition to specialist knowledge from the area of data evaluation and numerous practical examples, participants will be provided with up to date information on hardware and software. Good knowledge of PZB as well as experience with **ADS 3 or ADS 4** is a prerequisite.

The evaluation of travel data from the PZB data recorder is an important issue for every rail operator today. The use of the data goes well beyond the actual PZB evaluation, i.e. the use of data for quality assurance. So that data can be evaluated correctly, reliably and quickly, evaluation software provides versatile support.

Themes which will be explored at the workshop are:

- **How can you make your evaluation as effective as possible?**
- **Evaluation and reporting**
- **Innovations in data analysis**

In the practical part, special events and journey records in the PZB data recording will be discussed. Workshop participants may wish to contribute their own sample travel data which will then be discussed and evaluated. In this context a report will be created using the evaluation software.

Information

Price of Workshop

1,500.00 euros/person plus vat including snacks, dinner and beverages during the Workshop.

Workshop dates

For the current workshop programme please refer to our website www.deuta.com. The number of participants will be limited in order to be able to deal in depth with individual questions. Applications will be dealt with on a "first come, first served" basis.

Payment

The price of the seminar is due on receipt of the invoice.

Cancellation

In the case of cancellation up to 10 working days before the seminar is due to begin, we will charge EUR 120. After this time, the full seminar fee is due. If a seminar needs to be cancelled by us for unforeseen reasons, including at short notice, we will inform the participants immediately. Fees which have been paid will be refunded in such a case.

Workshop "Evaluation of PZB Travel data"

DEUTA Academy

Our Expertise

Since 1905 the name DEUTA-WERKE GmbH has been representing expertise in the areas of sensor technology, travel data recording and visualisation. We are delighted to pass this knowledge on to our customers.

Technological developments are advancing at an ever faster pace today which has led us to offer training for the employees of our rail customers with **practical, hands-on seminars for operators**. The demands made on users are constantly increasing. New forms of organisation within companies require employees to be qualified, flexible and able to deal with challenges quickly. State-of-the-art knowledge is the precondition for certification and new specifications in safety technology.

The DEUTA Academy training programme is geared closely towards the market requirements of our customers.

Qualification measures, customer training and hands-on workshops form an integrated, high-quality training concept.

Our participants enjoy the benefits of our competence and knowledge networks.

12:15	Workshop day 1 Reception - coffee & snack	09:00	Workshop Tag 2 Practical Data Evaluation Part 2: <ul style="list-style-type: none"> • Use of graphical and tabular representation for data visualisation • Adaptation of data representation and adaptation of layout • Using search functions in ADS 3 • Exporting travel data
13:00	Welcoming of participants; Introduction of speakers	11:00	Coffee break
13:15	Workshop overview; Organisation	11:15	Practical Data Evaluation Part 3: Creation of evaluation reports using evaluation software How can travel data be prepared in a report for non-experts?
13:30	Introduction to the functionality of ADS 3 software <ul style="list-style-type: none"> • Hardware requirements for installation of the software • Interfaces required for the reading out of travel data from the recorder • Installation of ADS 3 software with different operating systems 	13:00	End of Workshop Day 2
14:30	Coffee break	13:00	Lunch in the canteen - optional Departure
14:45	Current customer requirements and market developments in evaluation software and data recorders Combining recorders and evaluation software in one project.		
15:30	Practice ADS 3 Part 1: <ul style="list-style-type: none"> • Reading out travel data from various recorders • Data storage and data backup on the PC • Opening travel data files with ADS 3 • Displaying travel data in graphical and tabular view 		
18:00	End of Workshop Day 1		
18:30	Dinner & exchange of experiences
